

Pork & Processed Meat Issues Forum

Scott Goltry

Meat Industry Management Conference

April 6, 2016

Short term: 2016-2017

- Pork Cuts and Comminuted Pork Testing
 - Exploratory Survey I & II
 - Includes all types and classes of swine
 - Does not include variety meats
 - Could drive industry best practices; head meat
 - Baseline could begin in August, 2016 and products sampled for 12 months
 - Possible proposed performance standard 2018

Short term: 2016-2017

- *Salmonella* Control in Market Hog Compliance Guide revision
 - Expect in 6-9 months
 - The compliance guide could be used to develop a swine sanitary dressing directive
 - FSIS using the same beef/*E.coli* playbook for pork
- Elimination of Trichinae Control
Regulation: Supplemental proposed rule

Short Term 2016-2017

New Swine Inspection System

“Pork HIMP”

- St Joe Knowledge Exchange
- Meat Institute supports both systems
- FSIS has stated no reason not to move forward with modernized inspection system for pork

Longer Term

- Whole Genome Sequencing
 - Trace back and outbreak resolution
 - Eliminate harborage sites through sanitary equipment design
- What approach will FSIS take to regulate *Salmonella*?
 - Is WGS the analytical method?
 - Are performance standards the alternative to adulteration proclamation?
